

## Health & Safety Regulation Level 5

What Units Do I Have To Complete?

### Level 5

In order to achieve a full Level 5 qualification, candidates must complete a total of nine units of competence, comprising eight mandatory units and one optional unit.

#### Mandatory Units

Unit G3	Evaluate and develop own practice
Unit HSR1	Identify the plans and priorities of the regulatory authority for work related health and safety, and contribute to them effectively
Unit HSR2	Inspect duty holders, worksites and activities for the purposes of work related health and safety regulation
Unit HSR3	Investigate work-related accidents, incidents, ill-health reports and complaints for the purposes of health and safety regulation
Unit HSR4	Plan and gather evidence for the purposes of work related health and safety regulation
Unit HSR7	Draft and serve notices or other statutory enforceable documents for the purposes of work related health and safety regulation
Unit HSR8	Influence health and safety duty holders and others for the purposes of work related health and safety regulation
Unit HSR9	Improve work related health and safety through promotional activities

1 Optional Unit from the following:

Unit HSR5	Enforce statutory provisions and brief a prosecutor for the purposes of work related health and safety regulation
Unit HSR6	Enforce statutory provisions and present guilty pleas in Magistrates Courts for the purposes of work related health and safety regulation
